HARKAMAL KHABRA

Summary

Full-stack web developer with a background in geography and operations management. My enthusiasm for problem solving and design prompted a pursuit of a career in web development. 5 years of experience as an operations manager in the auto industry has refined my attention to detail, as well as my ability to work both in a large team, and on my own in order to achieve a common goal. I'm an avid learner with a curiosity in knowing how things work, always on the lookout for new challenges and ways to be more efficient.

Employment

goclean inc.   Toronto, Ontario
Operations Manager   Oct. 2013 to Sept. 2018
Role consisted of payroll management, employee training, scheduling, invoicing, database management as well as inventory management.
Leveraged MS Office (mainly Excel and Access), and QuickBooks for majority of tasks.
Direct communication with clients, suppliers, as well as colleagues to ensure everything was completed in an optimal manner.
Redesigned workflow methods to increase efficiency and quality of work being completed, resulting in service time being reduced by 25%.

HP Canada   Mississauga, Ontario
Project Coordinator   Aug. 2012 to Sept. 2013
Explored sales opportunities and initiated dialogue with potential customers.
Worked with team to deliver client solutions, ensuring accuracy along the way.
Created recommendation reports for clients demonstrating everything involved in their proposed solution.

Projects

roomR
